The Second China (Sanya) International Rice Forum (The Second round of notice)

All domestic and foreign colleges and universities, scientific research institutes, seed and rice enterprises and relevant people,

Rice is the main food crops of human beings and about 60% people all over the world live in the world relying on rice. The countries around the route of the “Belt and Road” are the most main production areas of rice in the world, and the rice productivity occupies over 61% of the world rice productivity. Chinese rice research and rice productivity are No. 1 of the world, and until now, it has cultivated several thousands of technicians for tens of developing countries in Asia, Africa and Latin America, etc. and greatly promoted the improvement of rice productivity of the countries around the route of the “Belt and Road”. At present, more and more countries begin to promote the hybrid rice of China comprehensively in their domain regions to solve the food problem of their native people. Rice has become the joint link for maintaining the fate of China and the world.

In order to better practice the Chinese spirit of “the Belt and Road”,

strengthen the deep cooperation of the rice field with the countries along the route of “the Belt and Road”, China (Sanya) International Rice Forum Committee will hold the Second China (Sanya) International Rice Forum- “The Belt and Road” International Rice Cooperation Summit Forum during the period of April 16, 2018 to April 19, 2018 and Academician Yuan Longping will take the charge of Chairman continuously.

Based on “Off-season Multiplication Seed is World Source and Chinese Rice is World Food” as the purpose with the subject of “New Times and New ‘Rice’ Road” , the forum begins mainly around the “Belt and Road” International Rice Cooperation Summit Forum. Then, many domestic and foreign related people will get together in Sanya, negotiate about the rice breeding research and development of rice, promote application technologies of rice and share rice development achievements, export Chinese rice and bring in world rice.
